

Management Plan for Michelle Armstrong Dock

Michelle Armstrong has applied for a private moorage tenure at the location of Strata Lot 20, 9900 Eastside Road, Vernon, BC. The purpose of this project is to provide moorage space for one boat at the Armstrong residence on Okanagan Lake. Construction will commence and be completed during the summer of 2009.

Project Overview

- Fixed Dock, torque-driven into the lakebed with steel helical pile (please refer to drawing ARM.0000B, sent with application)
- Aluminum frame with composite decking, manufactured in shop and delivered to site
- Public access is maintained along the beach, as the walkramp is situated on only a very small portion of the beach

Environmental

It has been determined that the proposed site is not in an environmentally sensitive area.

First Nations

First Nations has been retained to do an archaeological survey, and will be present to oversee all work conducted by BC Dock.
