Application for a Tenure –Access

Management Plan Details

Section A – Project Overview

The purpose of this Project is to install a cellular telecommunications tower, antennas, equipment shelter and related equipment, in order to provide coverage to presently under-serviced areas of the Yellowhead Highway and adjacent lands. Tenure is also required for Access to the proposed Site.

The area for the proposed Access, based on a 20 metre width, is 3.90 hectares. Construction is planned for Spring 2011.

Section B – Project Description

The enclosed Plans detail the proposed construction and Access location.

A detailed Management Plan is not currently available, due to the expense and timing of undertaking the field work and data collection at this time. In the event an Offer of Tenure is forthcoming, TM Mobile Inc. acknowledges that a condition of the Offer may be the provision of a detailed Management Plan.

Access will be gained from the existing Cook Mountain Road, then to the Tower Site via existing access road, which may require some upgrading.

Section C – Additional Information

Environmental – Logging required to accommodate the proposed Access improvements is indeterminate at present. A Licence to Cut will be applied for in the event that logging is required. The Applicant will participate in any required environmental studies.

Socio-Community – This area is currently under-serviced. The proposed installation will provide enhanced coverage for the Yellowhead Highway and adjacent lands. The Applicant will participate in any required archaeological or related studies.
