## Section 1: Description of the Operation & Activities Offered

### 1.1 General Description of Operation

#### General Area

The Crown tenures are in the Hart ranges of the Rocky Mountain, 40 miles North by Northeast of the community of Bear Lake, BC, in the Anzac and Table River water sheds.

### 1.2 Commercial Recreation Activities Offered on Crown land

#### Description of Experience Being Offered

We offer hunting trips at all sites. A typical day that we offer would be if hunting: Up at 4 o'clock in the morning, have breakfast, and then at daylight go out hunting using horses or vehicles.

1.3 Staff	Experience
1. Guide Outfitter	30 years
2. Assistant Guides (4)	2 and 3 years guiding
3. Cook (main camp)	Food safe certificate/first aid level 1
4. Horse ranger (1)	40 years

### 2. Intensive Use Sites

Site #1 Main Camp  
 Site #2 Destillita Lake  
 Site #4 Upper Anzac Cabin  
 Site #5 ~~Crocker Lake - DELETED~~  
 Site #6 Wooyadilinka Creek  
 Site #7 Table River

### 2.1 Construction Schedule

 Site #7 10 x 10 Cabin with slanted roof. */without House.*

### 3. Access to Each Site

Site #1: Travel by vehicle on the Reynolds Creek Forest Service Road to the 864, then take the Anzac Forest Service Road to the main camp. 15 km.

Site #2: Travel by horseback 8km in on a horse trail leaving the Anzac Forest Service Road.

Site #3: Travel by horseback leaving main camp and going 12 miles up Anzac River on North side of river on Horse trail, or travel up Crocker Creek Forest Service Road to 22km and then take horse trail in 1 mile to site.

Site #4: Travel up Parsnip River by River boat 10 miles leaving Parsnip River Bridge to cabin.

~~Site #5: Travel by horseback 12 km up North side of Crocker Creek on horse trail to cabin site.~~

Site #6: Travel by horse back 8 km up old logging skid trail to cabin site.

Site #7: Drive from 1052km to Boulder Creek at 1086km by vehicle. Then go by quad from 1086km to 1106km on old access road to CN Tunnel. Then hike on trail up mountain for 3 miles into cabin site.

### 4. Drinking Water

We will obtain drinking water at main camp site #1 using existing well.

We will comply with the *Drinking Water Protection Act*.

### 5. Disposal of Garbage

All garbage will be hauled out to main camp and then hauled out to Bear Lake and put into transfer station.

### 6. Disposal of Sewage and Grey Water

Site #1 has sewage system in place. All other sites will have toilets in place away from any water course. Dish water will be placed in one specific place away from any water course.

**Table 1.1 Details of Intensive Use Sites**

Intensive Use Site Number/Name	Intended Use	Frequency of Use	Client Days Year 1	Client Days Year 2	Client Days Year 3	Period of Use	Existing Proposed Improvements
#7 Upper Table	Hunting Trips	2 Times per year	20 days	20 days	20 days	10 days per Hunt	Build 10 x 10 Cabin / 1-out House Summer of 2012

**Appendix 1 – Hazards and Safety Plan**

I certify that I have prepared a Hazards and Safety Plan which meets or exceeds Workers Compensation Board and approved industry standards and that my operation will meet the requirements of this plan.
