February 16, 2012

To whom it may concern;

RE; Breeze Investments aquatic tenure amendment application.
File # 3408836; Licence # 338547

Project purpose;

The addition of the dock is to reduce the wave action caused by boats traveling to and from Sicamous towards the narrows on Shuswap Lakes.

Location and Size;

UTM Zone 11U; 357037E; 5035203N

A 30mX4.2m dock placed in 10m of water parallel to the shoreline at 90 degrees to the east of the existing dock using three (3) steel piles of 16" diameter, to secure the platform in place.

Access to this property is currently by boat only.

Construction schedule;

To install the dock and two additional moorage piles of 12" in mid-April to mid-May 2012.

The piles will be installed using a sonic Vibrating head so as to have very little sediment disturbance.

Further information request should be directed to the under signed.

Thank you,

Jeff Mallmes
