RECEIVED
CRANBROOK, BC

Dear Barry Comin:

Enclosed is an application for a Crown Land Tenure for the purpose of extending Shaw Cable services to existing residence 4460 Standard Hill Road. We propose the placement of one QR860 coaxial cable in 75mm DB2 duct under the existing road surface of Permit No. 404258 from BC Hydro pole 2348202 on Standard Hill Road to new BC Hydro pole 2537970 located adjacent to the road surface of Permit No. 404258. We will then continue aerially on BC Hydro poles through Crown Land DL33 to the private property in question. Please see Shaw drawing RPN-48777.

Owners Adam and Jalene Lillejord of 4460 Standard Hill Road have been granted Temporary Use Permit No 404258 for the road entrance to their property. Permit 404258 can be found in file no. 4403390 and a copy of this permit has been enclosed for your convenience. We have also enclosed a letter from Mr. Lillejord giving Shaw Cable permission to place duct under his road surface.

For the aerial section of this construction project, Shaw Cable has received approval from BC Hydro to contact 11 poles. Approved BC Hydro SPO Shaw-321 is enclosed.

The underground section of this project will consist of the placement of 1 – 3" conduit (75mm DB2 duct) from pole 2348202 at the south end of Standard Hill Road to pole 2537970. A distance of 450m. All duct will be placed under the road driving surface of permit no. 404258. This dig is in a non-standard constructed road, consisting of boulders and crush. In order to place conduit, we will remove and dispose of boulders and crush to place the conduit at a 0.75m depth and then fill the trench with bedding sand and engineered crush compacted every 6" to 8". There will be no impact to wildlife.

Shaw Cablesystems GP will be responsible for regular maintenance. Please refer to the detailed site map and general maps attached for more information. The proposed land use falls under the category of Utilities and Access to a Single Lot. Fees in the amount of \$280.00 have been enclosed.

If you have any questions or require more information, please feel free to contact me at (250) 417-3898 or via email at karen.cribbes@sjrb.ca. I look forward to hearing from you.

Sincerely,

Karen Cribbes – System Planner
Shaw Cablesystems GP.
