### **Management Plan**

Please describe the details of your project to the extent known. Consult the guidance document for further information on regulatory requirements, rational for why the information is required, and how to find required information.

The scope and the timing for response will be provided. If information is requested and not received, it may result in the disallowance of the application.

Information on these topics may be required as part of the application processing and if further detail is necessary that is not part of the application and management plan received, you will be contacted and requested to provide additional information. In some circumstances, the use of a qualified professional to complete the plan may be required.

### 1.0 Background

### 1.1 Project Overview

Describe project for which authorization is requested, including construction and/or phased development details:

		U	
		1	1
	_	¥	_
-	7	71	

210 HOE 850 Jon Deer cat

### 1.2 Investigative Work

If any preliminary investigative work has been carried out, with or without an investigative authorization, provide details on work completed, incomplete or on-going from previous term.

Activity	Brief Description of Activity	Status (e.g. Complete, incomplete, ongoing)	Comments / Milestones
Add Row	-	1	

### 1.4 First Nations Consultation

Describe any contact you may have had, including the name of the First Nation(s) and representatives contacted.

10.2
Not applicable, the does not
Not applicable to accorde

### 2.0 Location

### 2.1 Description

Provide a general description of the location of the project:

83 mile had off non exst Road North east

D Lot#5410 Lot#

### 2.2 Location Justification

Provide your reasons/justification of the need for this type of project at this location:

The current road easement, through another parcel of private pop property, does not accommodate large semi trucks with cattle liners, needed for transportation of our cattle, to market \$ to other pastures. Also, the current road easement passes within 30 ft of the front door & home on the other parcel of private property. Our farming pur poses traffic has increased which is intrusive for the property owners of the other purcel.

2.3 Seasonal Expectations of Use

When will the Project require use of the land? Include information on key works during construction phases as well as operations phase. Please reference reduced risk fish windows as required by DFO:

Project Phase (Construction / Operations)	Brief Description of Activity / Works	Season

Add Row

current road only accommodates, (wide enough for the passing of ) small pickup trucks & cars. No room to widen this to current road easement as it passess through public private property, right through the yard residence immediate yard outbuildings are located precisely bearbording bordering on the parameter of the edge of the road.

# 3.0 Infrastructure and Improvements

## 3.1 Facilities and Infrastructure

construction methods and materials, and construction scheduling. Detail any new and existing facilities, infrastructure or processes proposed and any ancillary uses. Provide details of planned

Add Field	Facility/Infrastructure/Process
	rocess
	Construction Methods/Materials
	Construction Schedule

### 3.2 Access

Roadway/Proposed

贝

Connection

information including volume of traffic during construction/operation and phase or season that the traffic is expected: Identify existing and proposed roads used for access and their use by season. Include any proposed connections to public or Forest Service Roads; traffic

Xisting/Proposed CI	
Classification	Existing Road
Use Agreements	Road Permittee
Construction Phase	Traffic Volume
Operations Phase	olume
Effects	Mitigation of Traffic

Add Field

8) wile feet to non exsunt RO

## 3.3 Utility Requirements and Sources

Describe utility requirements and sources, include agreements in place or underway allowing access to utilities

surpe/Ground water licenses application BC Hydro survently. Future plans include delivery of fuel. - Construction of Expansion of Hydro services

Internet & telephone services 7

### 3.4 Water Supply

Identify water requirements for construction and operation phases (e.g. surface water and/or groundwater), including sources, location, volume and a general description of infrastructure planned to meet water supply requirements, include any agreements outside of Water Act Authorizations identified above (Section I, Authorizations, Permits or Approvals), such as Municipal water supply.

Project Phase (Construction/ Operation)	Water Kequirement (e.g. Surface water or ground water, etc)	Source/location	Volume	Infrastructure Description	Agreements	

# 3.5 Waste Collection Treatment and Disposal

Identify water requirements for construction and operation phases (e.g. surface water and/or groundwater), including:

Project Phase (Construction/ Operation)	Water Requirement (e.g. Surface water or ground water, etc)	Source/location	Volume	Infrastructure Description	Agreements
Add Field					

### 4.0 Environmental

Describe any significant impacts and proposed mitigation for the following environmental classes:

### 4.1 Land Impacts

### 4.1.1 Vegetation Removal

Is any timber removal required?

(\*\*Yes\*\* O No\*\*

Are any areas of vegetation to be cleared, outside of timber removal?

C Yes C No

### 4.1.2 Soil Disturbance

Will there be any areas of soil disturbance, including clearing, grubbing, excavation and levelling?

Is the area to be excavated a Brownfield site or has the potential to be contaminated?

C Yes ONO

Is there potential for disturbance of archaeological, paleontological fossils or historical artifacts?

### 4.1.3 Riparian Encroachment

Will any works be completed within or adjacent to the riparian zone of any water body?

C Yes

C No

### 4.1.4 Pesticides and Herbicides

Will there be any use of pesticides or herbicides during construction, operations and/or maintenance?

C Yes

No

### 4.1.5 Visual Impacts

Will there be any adverse effects of the projects, and any potential adverse effects on sight lines to the project area from surrounding areas likely to be used for scenic viewing by residents or other users?

( No

### 4.1.6 Archaeological Sites

Are there any known or high potential (Arch Procedure) archaeological sites within the project area?

C Yes O No

Have you conducted an AIA or engaged an archaeologist to assist with your investigations?

### 4.1.7 Construction Methods and Materials

Identify the types of construction materials, the methods used, their impacts, and any mitigations:

Construction Material/Method	Impacts	Mitigations	
Add Field	<b>L</b>		

Culvert. no motors need HOE 210 850 John Does cot

### 4.2 Atmospheric Impacts

### 4.2.1 Sound, Odor, Gas or Fuel Emissions

Will the project construction or operation cause any of the following to disturb wildlife or nearby residents:

(Best management practices for sound)

Sound? C Yes C No
Odor? C Yes C No
Gas? C Yes C No
Fuel Emissions? C Yes C No

### 4.3 Water or Land Covered by Water Impacts

### 4.3.1 Drainage Effects

Will the project result in changes to land drainage?

C Yes 7 No

-	_	_	-						
4	3	7	P	ub	lic	Α	CC	.60	5

Will the project	result in changes	to public access?
------------------	-------------------	-------------------

C Yes 9 No

### 4.3.3 Flood Potential

Will the project result in a potential for flooding?

### 4.4 Fish and Wildlife Habitat Impacts

### 4.4.1 Disturbance to Wildlife and Wildlife Habitat

Will the project result in adverse effects to wildlife or wildlife habitat? (BC Wildlife Act)

✓ Yes 
 ✓ No

Will the project (construction or operations phase) occur in and around streams, lakes, estuarine or marine environments?

Is the project (construction or operations phase) likely to increase erosion or sedimentation?

Will the project (construction or operations phase) require water diversion?

Will the project threaten or endanger species at risk in the area?

Species At Risk Act

### 5.0 Socio-Community

### 5.1 Land Use

Describe the current community setting on or near the project area, including the location of non-aboriginal and aboriginal communities or known use areas.

Ruval area of the Canboo, Scattered residential & farming owne private property. Lots of Crown land in area.

### 5.1.1 Land Management Plans and Regional Growth Strategies

Are there any land and resource management plans, coastal plans, provincial, regional growth strategies or local government plans with zoning, or management policies or use restrictions in place that could limit or preclude your proposed use of the land? (*Please refer to the Union of BC Municipalities (UBCM)*, and check the websites of the municipality, regional district or other organization with jurisdiction including your project area.)

C Yes & No

### 5.2 Socio-Community Conditions

### 5.2.1 Adjacent Users or Communities

Is the project likely to restrict public access, or the ability, or the ability of adjacent land owners or tenure holder to access their property or tenures?

### 5.2.2 Existing Services

Provide a description any increased demand on fire protection and other health facilities and emergency services arising from your Project, including proposed management or mitigation measures.
